PROFESSIONAL SUMMARY

Results-driven Data Analyst fresher with a B.Tech in AI & Data Science and hands-on experience across 3 internships (Infosys, CodersCave, Evolve Robot Lab). Skilled in transforming raw business data into actionable insights using SQL, Python, Power BI, and Advanced Excel. Built end-to-end analytics solutions for hotel revenue, HR attrition, and financial forecasting. **Flipkart Grid 7.0 National Semi-Finalist** and **Oracle Data Platform 2025 Certified**. Actively seeking full-time Data Analyst roles and freelance data projects.

TECHNICAL SKILLS

Data Analysis	SQL (MySQL) · Python (Pandas, NumPy) · Advanced Excel · EDA · Data Cleaning · Statistics
Visualization	Power BI · Matplotlib · Seaborn · Power Query · DAX · Dashboard Design
Concepts	Business Analytics · KPI Tracking · Customer Segmentation · Financial Forecasting · Storytelling with Data
Tools & Platforms	Jupyter Notebook · MySQL Workbench · GitHub · MS Excel · Google Sheets

INTERNSHIP EXPERIENCE

Data Analytics Intern Feb 2026 – Apr 2026
Infosys Virtual Internship · Remote

- Built **HotelRevAI** — an AI-driven hotel revenue analytics system in Excel and Power BI tracking KPIs including Occupancy Rate, ADR, and RevPAR across customer segments.
- Designed a star schema data model and interactive dashboards enabling trend analysis, customer segmentation, and revenue forecasting for hospitality management decisions.

Data Science Intern Aug 2024 – Sep 2024
CodersCave · Remote

- Analyzed **750,000+ customer transactions** using Python and Excel to identify purchasing patterns and generate actionable business insights.
- Built data-driven reports that supported business decision-making and contributed to customer retention strategy improvements.

Junior Research Fellow Jun 2024 – Jul 2024
Evolve Robot Lab · Chennai

- Built and deployed an ANN-based chatbot, reducing query response time by **50%** and improving user engagement by **25%**.
- Conducted data analysis and visualization using Python and statistical methods; participated in collaborative code reviews.

PROJECTS

Financial Forecasting & KPI Tracking Dashboard Python · Power BI · Excel

- Built an end-to-end financial dashboard tracking revenue, expenses, and profit margins with forecasting for the next 2 quarters.
- Identified 3 underperforming cost centres contributing to a projected 12% margin reduction; presented findings with actionable recommendations.

IBM HR Analytics — Employee Attrition & Performance Python · Power BI · SQL

- Analyzed IBM HR dataset (1,470 employees) to identify top attrition drivers; found that employees with low job satisfaction and frequent travel had a 38% higher attrition rate.
- Built an interactive Power BI dashboard with attrition rate KPIs, department-wise breakdown, and salary-band segmentation filters.

Hotel Revenue Analytics System (HotelRevAI) Excel · Power BI · Star Schema

- Designed a full hotel revenue analytics pipeline with star schema modelling, KPI dashboards, and customer segmentation analysis.

- Dashboard enabled revenue forecasting and occupancy trend monitoring across multiple property types.

Infosys Stock Performance Dashboard

Python · Matplotlib · Excel

- Analyzed 5 years of Infosys stock data; built visualizations for price trends, volatility, and moving averages to support investment insight.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2022 – 2026

Panimalar Engineering College, Chennai

CGPA: 7.9 / 10
